

Remote Condition Monitoring

*The future of proactive care!
It. Simply. Works.*

- ✓ Improve patient health outcomes
- ✓ Optimize your quality score
- ✓ Increase revenue for the practice

Features

- ★ Comprehensive patient monitoring services
- ★ Complete suite of remote monitoring devices
- ★ Enhanced proactive care
- ★ Internet access not needed
- ★ No initial or ongoing financial commitment
- ★ A turnkey solution provided by Genesis

Allows physicians to focus on patient care without administrative overhead

Transforming Care Delivery to Improve Patient Outcomes Through Innovation

Cellular Enabled & Easy to Use Devices

Device Strategy

Ease of setup and use for: seniors, rural and under-served.

SIM Card

All devices come with Integrated “always on” SIM card and DO NOT require any external internet.

Wide Range of Devices

Blood pressure monitors, glucose monitors, Weight scales, Pulse Oximeters, activity trackers, CGMs, Infrared Thermometers, Peak Flow Meters & Smart Pill Boxes.

Continuous Glucose Monitoring (CGM)

CGM devices such as “Free style libre” or Dexcom available for eligible patients.

Home Gateway with Plug-and-Play Setup

Data aggregator for multiple devices monitoring multiple chronic conditions.

Transforming Care Delivery and Improving Patient Outcomes Through Innovation

Streamlined Patient-Friendly Remote Monitoring and Chronic Care Management

Automatic Data Capture

No need for patients to manually input vital sign data.

Seamless Data Transmission:

Vital signs are effortlessly sent to secure platform in real-time with access for patients' physicians.

Alerts and Notifications for Effective Escalation Management

Visibility into out-of-range readings or missed prescriptions.
Dedicated team is on standby to manage and respond to these alerts promptly.

Simplicity in Setup

Our user-friendly Cellular Gateway eliminates setup complexities.

Patient-Centered Approach

Empowering both patients and their physicians through user-friendly tools, enabling a shift toward a preventive and proactive care approach, ultimately aiming for a healthier population.

Revolutionizing Your Practice

Our innovative approach to healthcare technology is a value add; transforming patient care and providing peace of mind while bringing state of the art resources to your practice.
